

Prepaid Debit Card

guard.me International Insurance celebrates its 20th Anniversary with an innovative solution to improving the student claim reimbursement process and experience. With the introduction of our new reloadable Virtual Prepaid Debit Card, students will benefit from a reduced claim-to-payment timeline.

The Student Experience Log into guardme.berkeleypayments.com

You will be able to check your card balance, view transaction history, suspend/unsuspend your card, and update your address

If your card is lost/stolen Berkeley's 24/7 call centre can assist with a replacement card which will be mailed directly to you

Virtual cards can be used for online transactions only and your physical card can be used for both instore and online transactions wherever Mastercard is accepted worldwide

[LEARN MORE!](#)

How It Works

When your claim is approved, a virtual card will be created, loaded and delivered to you via email within minutes

Once your virtual card has been activated online, a custom physical card will be created and shipped to you via Canada Post based on the shipping information provided by you - make sure your address is correct

Once the physical card has been activated, funds from the virtual card will be available on the physical card

Keep this card! Future claims can be loaded onto this card again and again

INNOVATION WHEN IT MATTERS. [COMPASSION WHERE IT COUNTS.](#)
