

iCent App

BY guard.me®

International students experience a significant amount of culture shock when studying abroad. Being acclimated to a new academic and social life is not always an easy adjustment. However, the **iCent app** helps tackle this issue by streamlining the on-boarding experience of international students.

iCent app's innovative infrastructure allows educational institutions to easily automate the delivery of information. Since **guard.me** International Insurance is integrated on the **iCent app**, insurance information is always made readily available to students.

Ultimately, **iCent app** is a solution to save schools time and money by always keeping international students well-informed through the use of artificial intelligence.

Try the free  **iCent™ app** to see how its innovative features can help reduce student traffic in your offices
